SUMMARY

Motivated Information Technology student with hands-on experience in full-stack web development, system design, and project leadership. Skilled in Django, Supabase, JavaScript, and database management. Passionate about building efficient and user-friendly systems that solve real-world problems. Known for being resourceful, detail-oriented, and a collaborative team player who enjoys turning ideas into working digital solutions.

PROJECT EXPERIENCE

Lead Developer — Davao City Barangay Complaint Management System   **Jan 2025 – Oct 2025**

- Designed and developed a web-based system that streamlines the process of filing and tracking barangay complaints.
- Implemented admin dashboards, real-time complaint updates, and a user-friendly interface using Django, Supabase, and JavaScript for both user and admin barangay halls.

System Developer — Bare Bears Kadayawan Unified System   **Sept 2024 – May 2025**

- Developed an integrated web system for a local art business with Ordering, POS, Booking, Purchasing, and Inventory modules.
- Designed a responsive admin dashboard with product, payment, and booking management features.

Front-End Developer — Lemonade Shop Website (Client Project)   **Jun 2025 – Aug 2025**

- Designed and developed a responsive front-end UI for a local lemonade shop, ensuring a clean, modern, and mobile-friendly user experience.
- Focused on brand consistency and usability to enhance customer engagement and online visibility.
